PRESIDENT'S MESSAGE

I would like to thank all of you for the honor of serving as your President. It's hard to believe that it has been six months since the annual NACCTFO Conference in Columbus, Ohio where I was sworn in as President. Time has really flown by! As President, I've had the opportunity to represent NACCTFO at the Idaho Association of County Treasurers Conference held in Montpelier, Idaho in the beautiful Bear Lake area. I also visited our friends in the sunshine state at the Florida Tax Collectors Association Education forum in Orlando.

I look forward to the opportunity to visit more states in the months ahead. Please contact me if you would like to have either myself or another NACCTFO officer attend your state conference. We will try our best to visit you!

The Education Committee and Executive Board held the annual planning meeting in Wichita, Kansas this past September to plan educational sessions for the year. The Executive Committee also discussed goals for the year. Our annual Legislative Conference is scheduled for March 2-3, at the Washington Hilton. Education includes sessions on Economic Development Policy, Dealing with Public Information Requests in the Information Age, Recruiting Good Employees, and Strategic Planning. We have a night Capitol tour scheduled on Thurs evening, Mar 1. This special tour is limited to the first 50 attendees. Get your registration done soon to reserve your place.

The Executive Board also decided at the meeting to appoint a special committee on Property Assessed Clean Energy (PACE). This group is charged with collecting information to inform our members on some "best practices" in dealing with the program. Several NACCTFO members volunteered and we have the committee formed. The goal is to provide information to assist collectors, treasurers and finance officers with the PACE program, if and when it comes to your state.

The 2018 NACCTFO Annual Conference will be at the Gaylord Opryland in Nashville, Tennessee, July 10-12. President-Elect Tracey Marshall is planning an outstanding Conference for Nashville. Keep watching the NACCTFO website for more details.

In closing, I would like to take this opportunity to challenge each of you to get involved in NACCTFO. Your talents and skills will only make our association stronger. I sincerely hope each of you have a great 2018!

Joe Grisolano Crawford County Treasurer, Girard, Kansas

Save Time, Reduce Expenses and Increase Return on Your Investments With MBS and eConnectDirect®

In today's interest rate environment, every dollar invested counts. Many experts are predicting higher rate increases in the future, but variables that drive the market are so complex that even market experts cannot consistently predict rate trends. Many local government investors have lost out on investment returns over the past 10 years while waiting for rates to increase, which is problematic for those accountable for public funds.

eConnectDirect[®], a proprietary online investment platform powered by Multi-Bank Securities, Inc. (MBS), gives county treasurers and finance directors the tools to confidently invest in any rate environment. eConnectDirect aggregates thousands of offerings from hundreds of dealers into one location, making it quick and easy to match your investment decisions to your cash flow needs and avoid the cost of waiting.

"With MBS and eConnectDirect, I have greater access to safe investment alternatives which has helped me double or even triple my return over what I was able to get previously," said Don Townsend, chief financial officer and county clerk for Dade County, Ga. "This increased access and market transparency ensures I am getting the best investment option available for our constituents' funds.""

More than 160 counties and 460 local governments have already signed up for eConnectDirect because it helps them save time, gives them greater control over their investment portfolios and helps them be more knowledgeable about current market pricing.

Users can request transactions independently through the platform or work side-by-side with their dedicated account representative on investment decisions. There are no obligations and no subscriptions with the eConnectDirect platform."

## **LEGISLATIVE UPDATE**

## From NACCTFO Legislative Chair Michael G. Diskin, Essex County, NY

Several legislative items of interest to NACCTFO members have occurred in recent months. First, there were several items in the **Tax Cuts and Jobs Act of 2017** passed in December that affected the tax-exempt status of bonds. Tax-exempt municipal bonds have been an important tool for Counties to help finance long-term infrastructure and other public projects. Over \$3 Trillion of municipal bonds is currently in the bond market. The Tax Cuts and Jobs Act **largely retained the tax-exempt status on municipal bonds** and Private Activity Bonds, which are widely used by nonprofit hospitals, universities, and airports. However, **Advance Refunding Bonds**, which were used by governments to save taxpayers money by refinancing one time during the life of the bond, **have had their tax-exempt status eliminated**. It is estimated that this could generate over \$17 Billion in new revenue for the federal government during the next 10 years.

As we all know now, State and Local Tax Deductions (SALT), with no cap on the amount deducted, had been allowed for certain taxpayers who itemized. State and Local income taxes and sales taxes, along with property taxes were allowed to be deducted. The Tax Cuts and Jobs Act **capped the SALT deductions at \$10,000** for all those taxes combined. This caused many taxpayers to rush to their local tax offices to pre-pay their 2018 property taxes, creating long lines in many locations. Many counties scrambled to devise methods to be able to accept the advance payments. Late in December, the I.R.S. ruled that the prepayments would only be allowed if the properties were already assessed and bill for 2018. For many taxpayers, it meant they were not going to be allowed to use the deduction and those taxpayers began asking for refunds.

Finally, the **United States Supreme Court has agreed to review remote sales tax collection**, which could be good news for many states trying to collect sales taxes from internet sales. In 1992, the U.S. Supreme Court, in the case of Quill vs. North Dakota ruled that sales taxes could not be collected unless there was physical presence in the locality where the sales tax was imposed. As we all know, internet sales have changed that landscape dramatically since that time. A new case, South Dakota vs. Wayfair, has reached the level of the U.S. Supreme Court in 2018. The state of South Dakota seeks to collect sales tax on purchases made from sellers outside the state, and this will precipitate a review by the current Supreme Court of the 1992 Quill case. Should the Court find in favor of South Dakota, it should allow the rest of the states to collect sales tax from internet sales, even if the vendor does not have a presence in the state. After many years of trying to get national legislation passed, in various previous bills, this could be the year that sales tax collection on internet sales finally gets resolved. However, a court decision would largely leave sales tax collection decisions to states, and could leave counties on the outside looking in at new revenue streams. Congress is working to pass legislation, including the **Marketplace Fairness Act (MFA)** or the **Remote Transactions Parity Act (RTPA)**, that would ensure a role for local governments in this process.

Property Assessed Clean Energy aka PACE What is it? How does/will it impact my office? Should I care about it?

Almost everyone agrees that energy efficiency, renewable energy, and water conservation are good things... but is PACE the best way to get these? According to <u>PaceNationUS.com</u> "Property Assessed Clean Energy (PACE) is a financing mechanism that enables low-cost, long-term funding for energy efficiency, renewable energy and water conservation projects. PACE financing is repaid as an assessment on the property's regular tax bill... Depending on local legislation, PACE can be used for commercial, nonprofit and residential properties." <u>Peggy Moak</u>, Butte County California Treasurer-Tax Collector has been named Chair of NACCTFO's new PACE Committee. Stay tuned...
